

Greetings and Salutations,

I'm am having a hard time understanding why more fees are being looked at for a symbol of American History. Millions of dollars are already being paid annually by the citizens of Colorado and if the funds are actually being used for, in this case the Highway Users Tax Fund. Our roads are progressively getting worse and not better so where exactly are all of our already paid hard earned tax dollars really going? Gov Polis already stated on 29AUG23 that "this flag is a proud symbol of the American Revolution, and ANY government not to violate the liberties of Americans" and yet the current office is trying to strip the people of their liberties and of their hard earned money.

I don't have any funds that help me out when i need the money, so why should i be mandated to put my money into a fund that i don't even use?
