Elisa McKee Against themselves	<p>The gender issue has been an unfortunate trend that has bypassed the sad mental health issues underneath. A person may believe a lot of things are causing their unhappiness and that if they just could change something about themselves that they would be happy. It's especially naive to think this way but very common as a younger person. Lack of impulse management and undeveloped brains cause lots of UNHAPPINESS for many people.</p> <p>For the political class to take up this flag is irresponsible and unnecessary. We ARE male and female and that's never going to change. If individuals are struggling with such issues, I would hope they pursue options to clarify their deeper unhappiness with themselves. It is punishing for the government to force the rest of us to give up our valued identities to enable this small minority in their life path. The sponsors of this bill may feel virtuous but they are not speaking for the majority of humanity!</p> <p>Don't you all have more important work to do?</p>
Ingrid Moore For themselves	<p>Dear Chair and Members of the Committee,</p> <p>I support this bill. We must keep our government documents current with the norms of society in consideration of all persons.</p>
Jeany Rush Against themselves	<p>TO: HOUSE COMMITTEE FOR AGRICULTURE, WATER, NATURAL RESOURCES</p> <p>RE: HB25-1084 Remove Gendered Language from Title 35</p> <p>Sponsors: McCormick, Marchman, Simpson</p> <p>FROM: Jeany Rush, Colorado Springs Concerned Constituent</p> <p>VOTE: NO</p> <p>To clarify, this is the committee on Water resources, and Agriculture review?</p> <p>We already do not properly manage our water resources in Colorado. We already mismanage our land, public and private. We totally mismanage our ranchers, land, and food production with massive - as in too many- fees, bills, statutes, people mind numbing interferences by our government over-reach, both state and federal! We totally mutilate our children with mind and physical destruction of their minds and bodies! Now you want to waste time worrying about re-writing history, by attempting to change the language, thereby creating another backdoor to remove the fact that gender means a man and a woman? When does this insanity change? This is truly ridiculous, and I do object!</p>
