

Make a Report. Make a Difference.

Report Anonymously. Any Time. Any Day.

What is Safe2Tell?

Safe2Tell gives students, parents, and community members a safe, anonymous way to report any threats to their safety or the safety of someone else. Safe2Tell is a nationally recognized and replicated model for anonymous reporting.

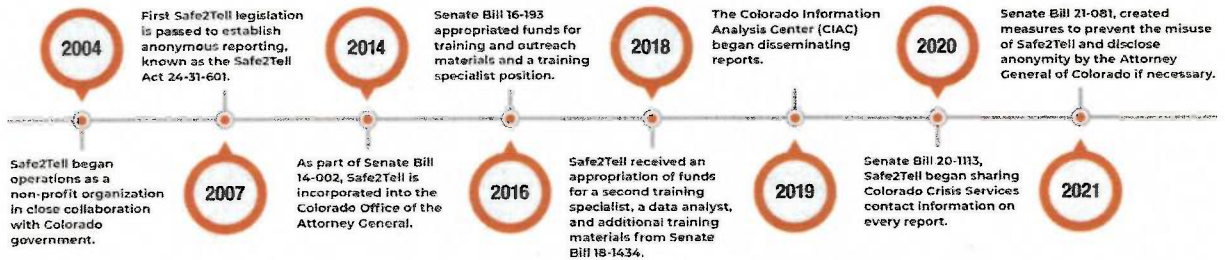

Overview of Safe2Tell

Safe2Tell was founded on the idea that early intervention is the key to preventing violence and saving lives. The program promotes early intervention by serving as a key information link between people submitting reports and local law enforcement agencies, such as school and law enforcement agencies. The founding principles are:

- **Educate** the community on the importance of reporting safety concerns.
- **Encourage** the community to play a role in prevention.
- **Equip** the community with a safe, easy way to report anonymously.
- **Empower** those who have the authority to help prevent or protect by making a difference.

Safe2Tell HISTORY

What can I report to Safe2Tell?

You can report anything related to school and youth safety/mental health where your desire is to protect, prevent, or help. If it is not a Safe2Tell matter, we will refer you to the appropriate resource if needed.

What about extreme circumstances? Is the reporting party's identity protected then?

Our mission is to break the code of silence through reporter anonymity. By law, Safe2Tell is required to protect the anonymity of reporters unless it is determined that a false report has been made through Safe2Tell with the intent to hurt, harass, or bully someone else. [Senate Bill 21-081](#) outlines such specific situations where either a court of law, or the Attorney General, may order the program to disclose such information. Instances of false reporting are rare and comprise approximately 2% of the reports received by Safe2Tell. Safe2Tell always welcome reports with the intent to prevent, protect or help made through the program.

Reasons to tell

We encourage you to come forward as soon as possible when you learn about something that may cause harm to others or yourself. When you see something, say something.

By reaching out to Safe2Tell, you can help someone who is struggling. If your desire is to protect, prevent, or help, send in your report. If you're unsure whether you should send in a report or not, and you are making a report to protect, prevent, or help, send it in.
