Jeany Rush For themselves	<p>TO: House Agriculture, Water &amp; Natural Resources Committee 3-3-25</p> <p>RE: HB25-1203 Misbranding Cultivated Meat Products as Meats</p> <p>SPONSORS: Winter, McCormick, Pelton, Mullica</p> <p>FROM: Jeany Rush, Colorado Springs, Constituent</p> <p>VOTE: YES</p> <p>This is a welcome bill because We The People deserve to know what is in all packaging, and especially in our foods. Further, we have a Right to know what is in the package.</p> <p>It is said that we are receiving something like 60% plus of our food from China, etc.? We as a nation have the ability to produce our own foods. What we do not have is the will to do so. In fact, our food production is under massive attack.</p> <p>I would welcome even more disclosures as to the true need for us all to be made aware of what is in all food, and whether a product is made in the US, with USA produced food products, or if not, where are the products from. Imagine the amount of things we receive from true Enemies of America, and think that is ok?</p> <p>When something says packaged in a place, it does not mean it came from that place. So yes, this is not just a welcomed bill, it is an essential requirement for us to know where it all comes from, and how that will impact our health.</p>
