

**FUNERAL ESTABLISHMENT
AND CREMATORY
INSPECTION
HB222-1073**

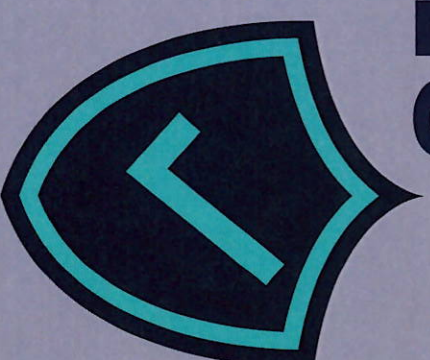

WHAT THE BILL DOES

- Authorizes the director of the Division of Professions and Occupations (DPO) to enter a funeral establishment and crematory to conduct inspections upon a complaint.
- The DPO director may contract with a third party to perform the inspection.

INTENT OF THE BILL: **STOP HEINOUS CRIMES**

- HB22-1073 enhances the inspection authority over funeral homes to **prevent the atrocities** seen in funeral homes across Eagle, Summit, Lake, and Montrose Counties recently.

WHY SUPPORT THE BILL

- Under current law, state agencies are unable to inspect funeral homes on a regular basis, even while they are able to inspect other businesses like restaurants and salons.
- This lack of oversight resulted in horrible conditions at multiple funeral homes in the mountain regions that victimized families who received unidentifiable remains and saw their loved ones treated with disgusting disrespect. The bill seeks to prevent that from ever happening again by allowing state inspectors to enter funeral home premises upon any complaint of misconduct by a customer.

Our families deserve respect, trust, and peace of mind.

**WE ASK FOR YOUR SUPPORT
OF THIS BIPARTISAN BILL**
